

# DPF CLEANER & REGENERATOR

Product ID: 80022

## Product description

TecLub DPF Cleaner & Regenerator is an organo-metallic iron-based diesel fuel additive to be used as a catalyst for the regeneration of diesel particulate filters. TecLub DPF Cleaner & Regenerator lowers the ignition temperature of soot collected in the diesel particulate filter and optimizes periodic combustion of accumulated soot. The unique combination of a clean fuel system, clean combustion with lower emissions and catalysed soot particles will clean up and assist in keeping the DPF, the catalytic converter, the exhaust gas recirculation system (EGR) as well as the turbo compressor and its variable geometry vanes clean from deposits.

## Benefits

- ✓ Ensures trouble-free operation of your DPF-system
- ✓ Cleans up and keeps your DPF system clean
- ✓ Enables quick and complete soot combustion and regeneration
- ✓ Prevents DPF clogging and engine performance loss
- ✓ Cleans the engine, the turbo variable vanes and exhaust system
- ✓ Reduces emission of smoke, HC, CO and particulate matter
- ✓ Improves fuel economy
- ✓ Extends DPF and catalyst service life

## Usage

For all common passenger car diesel engines with standard or retrofitted diesel particulate filter (including common rail, turbo charged engines).

## Direction

Pour the contents of one bottle in the fuel tank before filling it with diesel fuel.

## Dosage

One bottle treats 40-60 litres of diesel fuel.

## Technical specification

Density g/cm <sup>3</sup> :	0,791
Flash point:	> 61°C
Colour:	Amber to brown
Odour:	Characteristic
