

# CERAMIC ESTER ENGINE PROTECTOR

Product ID: 80032

## Product description

TECLUB Ceramic Ester Engine Protector is a unique new generation multi-functional ceramic ester engine oil additive with a superior performance under the most extreme conditions. The synergy of micro ceramic particles with high-end esters and PAO's create a high degree of bonding to metal which results in a solid and unequalled lubricating film on the most critical and wear-sensitive parts of the engine. This results in high performance lubrication, ensures a rapid heat transfer and prevents metal to metal contact.

## Benefits

- ✓ Significantly reduces friction and wear
- ✓ Reduces fuel and oil consumption
- ✓ Reduces emission of hazardous exhaust gases
- ✓ Provides emergency lubrication
- ✓ Reduces engine noise level
- ✓ Improves cold start performance
- ✓ Prolongs engine lifetime

## Usage

For all gasoline, diesel and LPG engines with or without turbochargers. Can be mixed with all commercially available engine oils. Does not clog filters and is not harmful for catalytic converters. Not suitable for motor cycles using a wet clutch.

## Direction

Shake well before use. Add contents of one bottle to the warm motor oil, preferably shortly after oil change. Drive approximately 15 minutes to obtain optimum result. Make sure the oil contents do not exceed the maximum oil level in your engine.

## Dosage

One bottle treats 4 to 6 litres of motor oil. Recommended use: every 50.000 km.

## Technical specification

Density g/cm <sup>3</sup> :	0,847
Flash point:	>200°C
Pour point:	-39°C
Viscosity @ 100°C:	13.7 mm <sup>2</sup> /s
Colour:	Cream white
