

# DPF CLEANER & REGENERATOR PREMIUM

Product ID: 80092

# **Product description**

TecLub DPF Cleaner & Regenerator Premium is a diesel fuel additive based on cerium-oxide nanoparticles to be used as a catalyst for the regeneration of diesel particulate filters. DPF Cleaner & Regenerator Premium lowers the ignition temperature of soot collected in the diesel particulate filter and optimizes periodic combustion of accumulated soot. The unique combination of a clean fuel system, clean combustion with lower emissions and catalysed soot particles will clean up and assist in keeping the DPF, the catalytic converter, the exhaust gas recirculation system (EGR) as well as the turbo compressor and its variable geometry vanes clean from deposits.

### **Benefits**

- ✓ Ensures trouble-free operation of your DPF-system
- ✓ Cleans up and keeps your DPF system clean
- ✓ Enables quick and complete soot combustion and regeneration
- ✓ Prevents DPF clogging
- ✓ Cleans the engine, the turbo variable vanes and exhaust system
- ✓ Reduces emission of smoke, HC, CO and particulate matter
- ✓ Improves fuel economy
- ✓ Extends DPF and catalyst service life
- ✓ Also suitable for use in trucks and buses

### Usage

For all common passenger car and heavy duty diesel engines with standard or retrofitted diesel particulate filter (including common rail, turbo charged and engines with a continuously regenerating trap).

## Direction

Pour the contents of one bottle in the fuel tank before filling it with diesel fuel.

### Dosage

One bottle treats 40-60 litres of diesel fuel.

# Technical specification

Density g/cm³: ~ 0,795
Flash point: > 61°C
Colour: Amber
Odour: Characteristic
