

WHEEL CLEANER

WITH COLOUR INDICATOR

Product ID: 80527

Product description

Highly effective acid-free cleaner for all types of steel and light alloy wheels. Easily removes even the most stubborn dirt such as burnt-on brake dust, oil and rubber residue and other road dirt from all types of steel and alloy wheels. Contains a very innovative colour indicator to show cleaning progress.

Benefits

- ✓ Easily removes brake dust, oil, rubber and road dirt from steel and (light) alloy wheels
- ✓ Easy to apply and remove
- ✓ A special colour indicator shows cleaning progress

"Results after 3 minutes of settling and high pressure water."

Usage

For all steel and (light) alloy wheels. Product is acid free and PH neutral. Does not affect steel, alloy or rubber.

Direction

1. Start with the front wheels.
2. Spray the product on the wheel completely covering all dirty areas. If necessary rotate the wheel 180° to reach all dirty areas.
3. Let the product settle for 3-5 minutes. Make sure the wheel stays completely wet with the wheel cleaner when applying the product on other wheels.
4. While working, the product turns from transparent to red / violet. After 3-5 minutes of settling the product will stop changing colour indicating it is ready.
5. Rework stubborn dirt with a suitable brush or sponge which fits into any strut.
6. Flush the product from the wheel with water preferably with high pressure.

Dosage

To be used whenever required
