

CERAMIC GREASE

Product ID: 80551

Product description

Ceramic Grease is a multifunctional product for lubrication, protection and anti-seize purposes. It is especially suitable for the lubrication of “dry” sliding or oscillating parts and screw, plug or bayonet connections from iron and non-ferocious metals. **Ceramic grease** is also very suitable as an anti-seize lubricant in high temperature environments (engines, brakes, etc.) and offers unparalleled and durable protection against corrosion in various applications within the industry, automotive field, farming or DIY.

Benefits

- ✓ Multifunctional anti-seize, lubricant and protectant
- ✓ Temperature resistant from -40°C up to 1400°C
- ✓ Free from metal, graphite, molybdenum and other sulphurous additives
- ✓ Resistant to hot and cold water and many acidous and alkaline chemicals

Usage

Various applications where lubrication, protection or anti-seize is required within the industry, farming, automotive field or DIY.

Direction

Shake well (1 minute) before use. Substrates should be clean and dry. Spraying distance approximately 20 cm.

Dosage

Do not over apply.
